The following is an Examiner's Statement of Reasons for Allowance: The Prior Art is replete with teachings of thin-film high-temperature superconducting materials and wherein the material is in contact with an electrical bypass layer. Shinichi (JP 5022855) teaches that it is known to offer multiple constrictions within a superconductor current limiter. However, the Prior Art of Record does not disclose nor make obvious the claimed combination of Independent Claim 1, which includes that the total resistance of the constrictions at working temperature is adapted to cause a voltage drop equal to the nominal voltage at an initial fault current limited to a value below a prospective fault current.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ronald W Leja whose telephone number is (571)272-2053. The examiner can normally be reached on Monday thru Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brian Sircus can be reached on (571)272-2800. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
